

2007 PUBLICATIONS

Available from the Composite Can and Tube Institute

The Composite Can and Tube Institute (CCTI) provides an array of publications which your company can use to enhance its competitive edge in today's market. **To order, please use the form provided in the back of this listing.**

SURVEYS & REPORTS

- ❖ Wage and Benefits
- ❖ Tube and Core Report
- ❖ Industry Marketing Report

NOTEBOOKS, SOFTWARE & MISC. PUBLICATIONS

- ❖ Technical Notebook
- ❖ Tube Design Tool Software
- ❖ Industry Directory
- ❖ CanTube Bulletin
- ❖ Classified Ads
- ❖ Composite Can Brochure
- ❖ Tube and Core Recovery Facilities List
- ❖ VTS Notebook (Ask Vinnie)
- ❖ Machine Guarding Album

TRAINING & INFO. RESOURCE LIBRARY

- ❖ Vendor Technical Subcommittee (VTS)
- ❖ AskVinnie.org
- ❖ Safety Tips for Operating a Spiral Winding Line Video
- ❖ Tube and Core Recovery Brochure
- ❖ Machine Guarding Album
- ❖ The Hazards of Nip Points Video
- ❖ Forklift Operator Safety Video
- ❖ Machine Guarding Video
- ❖ OSHA's Hazardous Energy Source Video
- ❖ Safety Orientation for Employees Video
- ❖ Hazard Communications Video
- ❖ Bloodborne Pathogens for Non-Healthcare Workers Video

COMPOSITE CAN AND TUBE INSTITUTE

50 South Pickett Street, Suite 110,
Alexandria, VA 22304

Tel: (703) 823-7234 Fax: (703) 823-7237

TUBE DESIGN TOOL

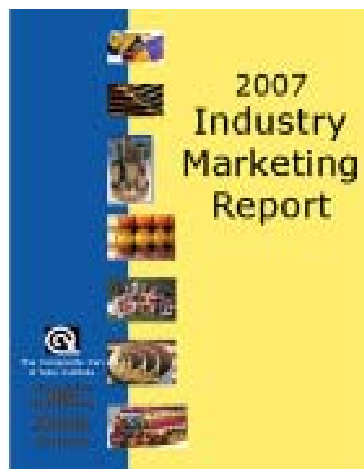

This software program, the Tube Design Tool, is the most comprehensive software currently available in the industry for producing fiber cores and tubes. It takes the guesswork out of choosing the correct ply width combination for constructing the strongest tube for any diameter and wall thickness. In addition, it will calculate the amount of paper rolls that are required for any given production run and accruing cost for the manufacturing process.

	Cost	
	Plant's 1st Copy	Add'l Copies
CCTI Industry Members Only	\$600	\$150 each
All Others	\$1500	\$250 each

Note: Each plant must buy one copy at the full price. Additional copies for that same plant are discounted as noted above.

2007 INDUSTRY MARKETING REPORT

Published every three years, this report summarizes sales results within the U.S. by end-use markets over the past 10 years for the following categories: paper mill cores; converter cores; cloth and floor covering cores; film cores; metal, foil, and strapping cores; household cores; mailing and packaging tubes; construction tubes and concrete molds; tape and label cores; yarn carriers; and all other uses. The Report also includes growth rates and projected growth rates for the composite can, tube, and core industry, as well as for the volume of recycled paperboard produced for the manufacture of composite cans, tubes, cores, and fiber drums. These industry

growth rate projections are based on sales dollars and trends, and tonnage (or real volume growth rates) as compared to the Gross Domestic Product and Industrial Production Indices.

	Cost
Members:	\$300
Non-Members:	\$600

CCTI PUBLICATIONS

TUBE AND CORE STATISTICAL REPORT

This includes a monthly report and a year-to-date comparison as well as graphic charts reflecting monthly market changes for tube and core sales. It also includes a year-end comparison and analysis. **This report is free to any Associate member upon request.**

COST

Member: Participant: No Charge Non-participant: \$100
Non-member: Participant: \$200 Non-participant: \$1,500

TECHNICAL NOTEBOOK

This notebook is a compilation of uniform industry specifications relating to the manufacture, testing and use of composite cans, tubes, and cores. It is conveniently organized in a notebook format and includes: Recommended Industry Standards, Standard Testing Procedures, Guidelines (including Papermill Core Guidelines), Technical Committee Reports, Conversion Tables, Silicate Information, and a Glossary of Technical Terms for Composite Can, Tubes, and Cores.

CD VERSION (ELECTRONIC)*

The CCTI Technical Notebook is now available by e-mail or in a CD version! All companies can now access individual documents, or the full notebook, via PDF versions available on CD. This format is available to all companies - regardless of geographic location (International companies can take advantage of the savings in shipment time and expense by utilizing this new format!).

COST

CD/Electronic: Members: \$85 Non-members: \$300
Paper/Hardcopy: Members: \$100 Non-members: \$300
Individual Docs: Members: \$10 each Non-members: \$30 each

***This application does require installation of an Adobe Acrobat Reader - which is available FREE at www.cctiwdc.org.**

MEMBERSHIP PLAQUES

Walnut plaque with CCTI's logo. **New members are provided with one complimentary plaque.**

COST (FOR ADDITIONAL PLAQUES)

U.S. members: \$75 Int'l members: \$100

2007 WAGE AND BENEFITS SURVEY (FOR CALENDAR YEAR 2006)

This report is a detailed survey of collective bargaining agreements by union and non-union industry members. The **Wage and Benefits** report reveals detailed information by region about wage rates and increases, premium pay, supplemental pay, insurance and time-off benefits. It offers various ways to benchmark production jobs for manufacturers in this industry. This survey is conducted bi-annually.

NOTE: Will be released in March/April of 2007.

COST

Participant: \$650
Non-Participant: Member: \$700 Non-member: \$800

INDUSTRY DIRECTORY

The Directory is an annually revised list of all known manufacturers in this industry. It includes product descriptions, contact names, plant addresses, phone and fax numbers, and email addresses and web-sites. It also contains a listing of CCTI Associate member companies, their products and services.

The directory is now available in paper or electronic (CD) versions. **CCTI Company Representatives are provided with one complimentary CD copy each year.**

COST

Members: One Complimentary CD Copy
Additional Member Copies: \$50 (CD) or \$100 (Paper)
Non-Members: \$200 (CD) or \$350 (Paper)

CANTUBE BULLETIN (NEWSLETTER)

CCTI's bimonthly newsletter is published online and password-protected for members only worldwide. It is an excellent source of information about issues affecting this industry as well as updates on CCTI activities. See the "Classified" section for advertising opportunities. *The CTB is offered to all employees of CCTI member companies at no charge. This publication is not available to non-member companies.*

CLASSIFIED ADVERTISEMENTS

Classified ads may be placed in the **CanTube Bulletin (CTB)**, which is published online bimonthly and password-protected for members only worldwide and/or within the Classified Section of CCTI's website. The Classified Section is open worldwide to anyone with internet access. CCTI's website is www.cctiwdc.org. A 15% discount will be given to any member who agrees to a one-year advertisement contract with both the CanTube Bulletin and the website. An additional 5% discount will be given to any member who agrees to a one-year advertisement contract in both the CanTube Bulletin and the website and **pays in full.** Employment ads can be published confidentially.

COST

	MEMBERS	NON-MEMBERS
1-yr. Agreement (CTB & Web - 15% off)	\$765	\$1500
1-yr. Agreement & Full Payment (20% off)	\$720	\$1275
Per issue (CTB or Website ONLY)	\$100	\$175
Per issue (CTB & Web)	\$150	\$250

MACHINE GUARDING ALBUM

Compiled by CCTI's Safety and Human Resources Committee, the Guarding Album is a spirally-bound photo album depicting guarding devices used on manufacturing machinery for production of composite cans, tubes, cores. Photographs include convolute winders; spiral winders; recutters; slitters; shredders and balers; forklift trucks; material handling, auxiliary finishing equipment; and safety labels, devices and sources. *The Machine Guarding Album is updated every 3 years.*

COST

Members: \$125 Non-members: \$250

TRAINING AND INFORMATION RESOURCE LIBRARY

Videos may be borrowed for a period of no more than 3 weeks. Please note, only selected videos are for sale.

SAFETY VIDEO: THE HAZARDS OF NIP POINTS

This video, produced by The Newark Group, is an excellent safety video that has received tremendous feedback from viewers. Many CCTI members have incorporated it into their plant safety meetings. The video may be borrowed for up to three weeks.

COST FOR NON-MEMBERS: \$25

SAFETY VIDEO: FORKLIFT OPERATOR SAFETY

A comprehensive video for anyone operating forklifts in the manufacturing environment. Teaches employees engineering principles, operator safety rules and maintenance. The video may be borrowed for up to three weeks.

SAFETY VIDEO: MACHINE GUARDING

Designed for employees as well as supervisors, this video explains what machine guarding is all about. It includes detailed information on lockouts, tagouts, interlocks, two-hand trip devices, and more. The video emphasizes that employee responsibility is paramount when working with machinery.

OSHA'S HAZARDOUS ENERGY SOURCE VIDEO (LOCKOUT/TAGOUT)

This program meets the OSHA requirements for training employees in the new lockout/tagout procedures.

SAFETY ORIENTATION FOR EMPLOYEES VIDEO

This video, produced by DuPont, is a complete package to introduce employees to your company's safety philosophy in a way that helps them see value of safe behavior. They learn that acting to prevent injuries benefits not only the company but also themselves and their families. The Administrator's/Leader's Guide and Orientation Workbook for the employee can be ordered from DuPont.

HAZARD COMMUNICATIONS VIDEO

This video covers important OSHA training requirements for all employees. It instructs employees to be aware of hazardous chemicals and materials in the workplace and to understand the function of MSDSs.

BLOODBORNE PATHOGENS FOR NON-HEALTHCARE WORKERS VIDEO

Designed for all employees, even those who are not at occupational risk of exposure, to make them aware of HIV and Hepatitis B viruses that can be transmitted through blood or body fluids. This program provides the basic information needed to reduce risks.

SAFETY VIDEO: SAFETY TIPS FOR OPERATING A SPIRAL WINDING LINE

This video, produced by CCTI's Safety and H.R. Committee, focuses on general safety procedures for production crews operating a spiral winding line. It is intended to be used as a safety awareness tool for employees to help reduce workplace accidents by: teaching safety practices used by industry colleagues; comparing various machine guarding approaches; and, providing new ideas on handling and staging paper rolls.

COST:

Members: \$50 Non-members: \$500

BROCHURES

CCTI Brochures are available to all members at no cost.

TUBE AND CORE RECOVERY BROCHURE AND FACILITIES LISTING

CCTI developed this brochure as a result of the increased demand by the tube and core industry's customers for the recovery of used tubes and cores as well as to be environmentally responsive. CCTI canvassed recovery centers in an effort to supply the industry with greater knowledge and access to industry and independent recovery centers. *The list of recovery centers is updated annually.* **Brochures are complimentary for members and non-members.**

COMPOSITE CAN MARKETING BROCHURE

The **Composite Can Brochure** was created for member's use in marketing to customers and for broadening their client base. The brochure highlights the advantages of using composite cans and how creative a composite package can be by using graphics, shape, texture and materials to communicate the product's message. To request brochures, please contact CCTI. **Brochures are free to members.**

CCTI ASSOCIATION INFORMATIONAL BROCHURE

This brochure was developed to highlight the programs, services and activities of the Composite Can and Tube Institute. The Association plays a vital role in supporting and championing the interests of its members worldwide. This brochure is a great informational tool for members to keep in their office as a handy reference, or to give to prospective members, distribute at trade shows, and more. To request brochures, please contact CCTI. **Brochures are complimentary to members and non-members.**

CCTI PUBLICATIONS PAYMENT FORM

Payment to CCTI may be made by:

- ◆ **CHECK** - *U.S. funds only, checks not issued in U.S. dollars will be returned for re-issue.*
- ◆ **CREDIT CARD** - *Visa, MC, Amex - use of credit cards includes an additional 3% handling fee.*
- ◆ **WIRE TRANSFER** - *Please contact CCTI for account information.*

Note: To order the Tube Design Tool software program, use attached TD Tool order form or visit the CCTI Website (www.cctiwdc.org) to download the correct form.
